- counselling rooms
- more treatment centres

2 children
 support groups
 PTG rehab centres
 NGOs

trained volunteers
 + rehab professionals
 medicine
 Cbr
 peer educators

3 identify people - OUTREACH -> education!

capacity of groups -> start a network

* Get community involved in networking to fight stigma, promote integration
 - disseminate info in our own communities
 - train the trainers

① What are the next steps for bridging the gap in your community?

② What programs/people/resources currently exist and what is needed?

③ What is one activity that you can do next together?

combined support group

- * educational
- church
- sensitization
- lobby
- counselling
- key
